Q2

DOMINANT

RISK &
RESILIENCE

**Am I managing risk,
or just managing the
appearance of
managing it?**

**Ranked second by procurement leaders at our
ProcureCon 2026 roundtable**

WHAT IT REALLY MEANS

Risk has widened well beyond continuity and cost. Geopolitics, regulation, cyber-security and the financial health of your suppliers now sit on the same agenda, and most of them move faster than the quarterly review meant to catch them.

A tidy dashboard can be the most dangerous artefact in the room. It turns the absence of red flags into a feeling of safety.

WHAT THE ROOM SAID

Procurement leaders' own topics, in their words.

A growing risk burden beyond continuity and cost.

Risk management

Geopolitical and regulatory risk.

Risk management

Cyber risk across the supply base.

Supply chain resilience

Supplier financial resilience.

Supply chain resilience

A watching brief on single points of failure.

Supply chain resilience

THE DIFFERENCE

Caught early, risk is value protected. Caught late, it's a P&L event with **your name on it.**

Comment "review" to book a supplier risk review, or read all ten questions:
